

A CAPITAL EXPERIENCE

DISTRITO CAPITAL, THE NEWEST HOTEL IN SANTA FE

Mexico City, February 19th, 2009 - Distrito Capital is the newest hotel in Santa Fe available for every man and woman on a business trip. Its retro décor and ambiance provides the inspiration tools needed to have a successful business trip.

Distrito Capital transports you back to the 60's within an urban, contemporary and unique setting. Designed by Joseph Dirand and created by Diametro Arquitectos, Distrito Capital is a hotel with the spirit of a pent house.

No matter which company you work for, national or international, Distrito Capital offers every accommodation necessary for an effective business trip. A restaurant with a national flavor menu designed by renowned chef Enrique Olvera, an open space fifth floor terrace with a calming pool and a stimulant bar in the style of Palm Springs, are only a couple of the great treats to discover at Distrito Capital.

The reception goes retro chic exhibiting a collection of furniture classic from the 60's like Eero Saarinen's tables, Wim Rietveld's chairs and Verner Panton's lamps. The main lobby perfectly blends those elements with an installation by Thomas Glassford and countless other creations of contemporary and international design, turning its style not only retro but very unique and eclectic.

Every detail, no matter how small, is combined to create a new look implemented by Grupo Habita, which, since its creation in 2000, never ceases to amaze and innovate the hospitality industry in Mexico.

Distrito Capital is located in the highest point of the city; therefore, it offers amazing panoramic views of Mexico.

The incredible sights, impressive interiors and superb service make Distrito Capital unique and unmatched.

Established within one of the most important business corporate areas of the city, Distrito Capital blends formal and fun perfectly. It becomes a place to close a business and celebrate it afterwards. A new meeting point, a new Capital District.

In terms of comparing, Distrito Capital would like the city of Brasilia, the car Pontiac, a woman like Raquel Welch, circa 1966, a singer like Frank Sinatra and a drink like a Dry Martini.
